

Asset Management Training

A range of eLearning and in person/remote training courses in Asset Management for all levels of an organisation. Including endorsed courses for the IAM's Foundation Award, Certificate and Diploma.

Industry Need

“We have been told to introduce better Asset Management practices but we don't really understand the full scope of Asset Management.”

Catalyst for Change

Internal or external stakeholders putting pressure on organisations to improve their Asset Management capabilities.

Outcome Delivered

Improved competence of staff to make better decisions leading to better outcomes, such as reduced costs, managed risk and systematic delivery of corporate objectives.

Why AMCL?

- High quality Training Products proven over many years
- Only business globally endorsed by the Institute of Asset Management (IAM) for all categories of training
- CPD registered training and eLearning recognised by WPIAM for CAMA as well as the IAM Certificate
- Track record of delivering Asset Management training globally across 19 sectors and to over 500 clients globally

Testimonials

“AMCL has proved to be truly flexible in tailoring their training package to meet our Asset Management training requirements. The training provided has not only delivered outstanding IAM Certificate results, it has proved invaluable in ensuring people from the different areas and levels of our organisation have a good understanding of the value that effective Asset Management can deliver to our business.”

BAE SYSTEMS

“I attended an Asset Management Certificate course with a final examination on day 6. The course content was comprehensive and professionally presented by a highly experienced industry expert in Asset Management. Each and every day was a full learning experience and the excitement in the lecture room among the 15 company delegates was palpable.

Back in the work place (a month later) the delegates are fully engaged about what they learned and seeking opportunities to apply their extended Asset Management knowledge. The certificate course content in my opinion is vital for industry professionals who work with and manage an aging infrastructure asset base. We achieved a 100% pass rate.”

nationalgrid

“Coming out of a consulting company that provided training, I can honestly say that the quality and delivery difference is night and day. I’ve been really impressed with the quality of the information, the knowledge of the content and the additional content for study purposes.

The interactive components add a dimension which I think really helps to drive home some of the principles.”
